

QUICK RESOURCES

For Families

1

SOONERSTART - CHILDREN 0-3 YEARS

- SoonerStart is Oklahoma's early intervention program designed to meet the needs of families with infants or toddlers with developmental delays or disabilities. The program provides support and resources to assist family members in enhancing infants' or toddlers' learning and development through everyday learning opportunities.
- Go to the [SoonerStart website](#) for more information.

PUBLIC SCHOOL - CHILDREN 3 - 22 YEARS

- School-based evaluations, educational, and therapy services are available at no charge for eligible children ages 3 years and older. Contact the special education director in your school district for more information about Child Find and access to these services.

OKLAHOMA AUTISM NETWORK PROVIDER DIRECTORY

- Find our provider directory for doctors, therapists, and other resources here: [Find-a-provider-resource](#).

FINANCIAL RESOURCES

- Find information on financial resources such as the Medicaid Waiver, Sooner Care and Respite here: [financial-resources](#).

4

5

IEP RESOURCES

Individual Educational Programs (IEPs) detail your child's present level of performance, goals, and services provided by the public school district in which you reside. There are many agencies in Oklahoma that provide information or help parents advocate on their child's behalf. In addition to The Oklahoma Autism Network, you can find other resources here: [advocacy](#).

TRAINING / CONFERENCE

- The Oklahoma Autism Network provides training for families, schools, and community groups. To request training or for more information, please email us at okautism@ouhsc.edu.
- Each Fall, The Oklahoma Autism Network hosts a conference for families, providers, and self-advocates. Please watch our website for dates and registration information. www.okautism.org.

MORE INFORMATION

- No two individuals with ASD are alike. However, all individuals experience some differences with social development, communication, and behavior.
- If you are concerned that your child demonstrates some of the signs of autism, consider having a screening or a comprehensive diagnostic evaluation completed.
- Please contact us if you have additional questions.
